

Lean & Green 101

What is Lean & Green?

What's the final destination of the by-products and waste created by your process? The landfill? The public sewer system?

How can your company reduce its energy related costs, reduce the impact of energy production on our environment *and* improve your profitability?

Lean & Green 101 will provide a general awareness on:

- ◆ What is Lean?
- ◆ What is Green?
- ◆ Sustainability & Global Conditions
- ◆ Solid Waste Management / 4R's
- ◆ Energy Management
- ◆ Green Chemistry
- ◆ Climate / Air Emissions Management
- ◆ Supply Water / Wastewater Management
- ◆ Environmental Business Management

Expect a fun, fast-paced workshop that combines classroom-style learning with interactive "live" simulations.

Breakfast & Lunch Provided

Learn about green concepts, key environmental issues and the components of sustainability

Friday, April 29th, 2011 — Flagstaff, AZ

9 AM - 4 PM

Coconino Community College

The Lean and Green Workshop will provide participants with general awareness on several key concepts including:

- Reducing your environmental impact while increasing bottom line profitability
- Improving efficiency, lower costs, and reduce regulatory compliance expenses
- Applying sustainable, environmentally friendly practices in the workplace

The workshop is open to the public and the cost is \$300 per person. For more information or to register - email Christine Sette at events@arizanamep.org or call (480) 874-9100, Toll Free at 1-800-637-
